### PRO TIP

It's easy to get lost in the Stain section. Here is a quick guide to the 3 main types of stain:

**CLEAR:** Clear sealants protect the wood without hiding the wood's grain. Re-apply annually.

**SEMI-TRANSPARENT:** Changes the colour of the wood without hiding the wood's grain. Re-apply every 2-3 years

**SOLID STAIN:** Changes the colour of the wood like a flat paint and hides the wood grain while maintaining the texture. Re-apply every 5-7 years.
